MUSIC COMPOSITION, MM

Offered in: Chicago

The Music Composition program challenges dedicated individual composers to develop and hone their creative skills. The goals of the program for all students are to:

- Cultivate the ability to utilize all of the building blocks of music (pitch, rhythm, meter, tension and relaxation, formal structure) to create a diverse portfolio of works.
- Gain the necessary professional skills: rehearsal, communication, promotion, publication, and networking.
- Explore various musical languages and styles in pursuit of the formation of their own unique voices.

At the graduate level, the faculty emphasizes the creation of extended works, breadth of technique, and the synthesis of influences, experiences, and abilities that result in the emergence of a personal style. The culminating final project (thesis) is an original composition of significant proportions.

Four public composition recitals each year, as well as multiple opportunities for collaboration with other programs such as dance, piano, instrumental ensembles, and opera, provide students with ample and regular opportunities to work with other musicians to prepare formal performances of their own compositions. The graduate recital demonstrates growth and progress in the student's portfolio over four semesters of study and the ability to compose works of sophistication and expanded length for larger ensembles. A complete listing of program requirements is published in the Music Conservatory Handbook (https://www.roosevelt.edu/~/media/Files/pdfs/college-ccpa/MUSIC-C-HANDBOOK.ashx?la=en).
