

AFRICAN AMERICAN STUDIES, BA

Courses offered in the program enable students in all of the colleges within the university to pursue undergraduate sequences for enrichment or specialization in African American studies. Most courses offered through the St. Clair Drake Center for African and African American Studies are interdisciplinary and may be used to satisfy general education requirements as well as electives. The objectives of the African American studies program are:

- To provide a fundamental understanding of those economic, social, cultural, and political forces in Africa, Europe, and North and Latin America that have shaped the lives of African peoples throughout the African Diaspora, c. 1400 to the present.
- To better understand the unique history and relationships between Africans that live outside of the continent and those that have remained.
- To provide, through the Drake Center, a place to conduct basic and applied research.
- To provide resources to create materials that illustrate the problems and development of peoples of African descent in a variety of institutional settings. A major focus of the Drake Center continues to be the Chicago metropolitan area, including urban and suburban enclaves, most notably, the famed Black Metropolis.
- To influence and support conversations about Africa by providing accurate, timely, and appropriate information on selected topics.
- To provide multiple levels of understanding of unique problems of African Americans in contemporary American life and the space required to work toward solutions to those problems.
- To place African American men and women in the complex and often conflicted layers of American society and to show how each has contributed to the development of modern day American society.
- To develop an expanding curriculum and a body of research that informs and influences policy that affects the lives of African Americans.

Students interested in African American studies are encouraged to take courses in African history and politics. Interested students should consult the director of the Drake Center as early in their academic careers as possible.

The BA in African American Studies will help students gain an interdisciplinary understanding on past and present social, economic, and political conditions of Africans and people of African descent, and to connect their struggles for social and economic justice with those of disenfranchised peoples throughout the world.

Standards

Students must complete all course work with a grade of C- or higher, with an overall GPA in the major of at least 2.0.

Requirements: Thirty credit hours of course work are required. With the approval of the program director, students select 21 credit hours from African American Studies courses, of which 12 credit hours must be at the 300 level. Also, 9 credit hours must be selected from courses in African history, politics, and culture. At least 15 credit hours of course work must be taken at Roosevelt University.

Courses listed below are only a portion of possible offerings. Check course schedules or meet with an advisor for additions.

Your degree map is a general guide suggesting courses to complete each term on the academic pathway to your degree. It is based on the most current scheduling information from your academic program. Your program's degree map is reviewed annually and updated as schedules change (although you retain the same course requirements as long as you are continuously enrolled in your degree program).

Always work closely with your academic advisor to understand curriculum requirements and scheduling, as each student's academic plan can look slightly different.
