COMPUTER SCIENCE, BS

The Department of Computer Science and Information Technology offers three majors in Computer Science, Information Technology, and Data Analytics. A comprehensive range of course are taught in Cyber Security and Information Assurance, as well as general technology and computer literacy. All courses presented for the major and minor must be coordinated with a departmental advisor in accordance with curriculum check sheets and must be passed with a grade of C- or higher.

All students considering a major within the Department of Computer Science and Information Technology are highly encouraged to discuss their academic plans with an advisor within the department at their earliest opportunity, even while still working with admissions or general advising. Everyone is welcome to initiate a conversation with a CST advisor at any time.

A minimum of 15 credit hours of CST coursework must be completed at Roosevelt University to earn a CST major.

Because of the rapidly changing nature of this field of study, computing courses taken more than eight years ago cannot be counted towards degree requirements unless the student has been continuously registered since the time the course was taken (excluding summers). A double major among any of the CST majors is not offered because of the aligned nature of these degree programs. For additional information, please view the Department of Computer Science and Information Technology website (http://cs.roosevelt.edu).

The Computer Science program follows the traditional computer science curriculum with its emphasis on mathematics and computing systems theory. It prepares students to pursue careers in highly technical areas such as systems programming and software engineering or to go on to pursue graduate degrees in computer science.

At least 30 credit hours of credit must be taken at Roosevelt University, with at least 15 of these in the computer science major; at most 60 credit hours may be taken at the 100 level. At least 69 credit hours must be in non-computing courses. Students planning to pursue an MS in computer science should take MATH 231 CALCULUS I, MATH 245 DISCRETE STRUCTURES, and MATH 246 LINEAR ALGEBRA, as well as CST 280 INTRODUCTION TO ALGORITHMS in their curriculum.

Requirements

The final 30 credit hours of the degree must be taken at Roosevelt University. At least 15 credit hours of credit in the computer science major must also be taken at Roosevelt. At most 60 credit hours may be taken at the 100 level. At least 63 credit hours must be in non-computing courses.

Further requirements for the BS Degree:

At least 60 credit hours in the computer sciences, natural sciences, mathematics, and/or psychology;

Non-Western requirement

Non-Western course (can be used for Humanities or Social Sciences general education requirements)

RU mission-related course 2

1 Academic Communities of Practice
2 English Composition
3 Non-Western requirement
LIBS 201  WRITING SOCIAL JUSTICE  3

Science
One biological science and one physical science required  7-8
(at least one must be a four-hour lab (not applicable for science majors)

Social Sciences
Select 9 credits from the following subject areas: African-American Studies, Anthropology, Economics, History, Journalism, Philosophy, Political Science, Psychology, Sociology and Women’s and Gender Studies  9

Total Credit Hours  49-50

1  Required for students who enter RU with fewer than 12 credit hours
2  Minimum grade of C- required
3  Math, Computer Science & Technology, and Science majors have different requirements—see advisor

These quantitative requirements also apply to degrees in the College of Arts and Sciences:

- Students may apply no more than 60 credit hours of 100-level courses toward the degree.
- Students must apply no fewer than 60 credit hours of 200- and 300-level courses toward the degree.
- Students must have at least 18 credit hours (of the 60 credit hours above) at the 300 level.
- Students may transfer in no more than 66 credit hours from community colleges.
- Students must have a grade point average of 2.0 or higher to graduate. Note that some majors have additional GPA requirements.
- Students must have a minimum of 90 hours in Arts and Sciences.
- Students may apply no more than 51 hours in the major (BA) or 57 hours in the major (BS)

Your degree map is a general guide suggesting courses to complete each term on the academic pathway to your degree. It is based on the most current scheduling information from your academic program. Your program's degree map is reviewed annually and updated as schedules change (although you retain the same course requirements as long as you are continuously enrolled in your degree program).

Always work closely with your academic advisor to understand curriculum requirements and scheduling, as each student's academic plan can look slightly different.
