

BUSINESS ADMINISTRATION, MBA

The MBA degree prepares students for executive and managerial positions in both the private and public sectors. Emphasis is placed on the development of critical knowledge across a variety of business disciplines and problem-solving and decision-making abilities. The degree includes broad preparation in business administration while allowing for a concentration in a specific business discipline or related disciplines.

Students may select a concentration consisting of three related courses designed from curricula housed in the Heller College of Business and the College of Humanities, Education, and Social Sciences.. Multiple concentrations may also be pursued (this will require an increased number of credit hours- speak to a graduate adviser for details).

Within the Heller College of Business, students may choose a concentration from the following areas: accounting, accounting forensics, finance, hospitality and tourism management, human resource management, information systems, international business, management, marketing, real estate, and social entrepreneurship.

Students' second option is to choose a concentration from another graduate program within the university. These options and variations open a variety of career paths to MBA graduates. These concentrations include, but are not limited to: economics, health services administration, industrial/organizational psychology, integrated marketing communications, and training and development.

Requirements

To earn the MBA, students must successfully complete 33 credit hours. Typically, this includes eleven courses: seven core courses, three courses in an area of concentration, and one elective. Of the 12 core and concentration courses required for the degree, at least nine must be courses offered in the College of Business. If the concentration selected is outside the College of Business, then the elective must be a Heller College of Business course. Students may elect to do a maximum of two concentrations, although one concentration must be inside of the Heller College of Business. Students completing two concentrations will have the graduate elective waived and will complete a total of 43 credit hours.

Students should also plan their programs of study so that all prerequisites are completed before enrolling in any course that has a prerequisite.

Code	Title	Credit Hours
Core Courses		
ACCT 405	ACCOUNTING FOR EXECUTIVES	3

PSYC 671	DIVERSITY IN ORGANIZATIONS	
PSYC 673	CONSULTING SKILLS	
Total Credit Hours		9

Your degree map is a general guide suggesting courses to complete each term on the academic pathway to your degree. It is based on the most current scheduling information from your academic program. Your program's degree map is reviewed annually and updated as schedules change (although you retain the same course requirements as long as you are continuously enrolled in your degree program).

Always work closely with your academic advisor to understand curriculum requirements and scheduling, as each student's academic plan can look slightly different. No more than two grades of C (not C-) may be applied toward the 33 hours used for the degree. A graduate course can only be repeated once; no more than two courses can be repeated.
