

# SOCIAL ENTREPRENEURSHIP, BSBA

The Major in Social Entrepreneurship is designed for students interested in using their business skills in the entrepreneurial pursuit of social impact. The core BSBA program provides a strong foundation for any student looking to become a successful business leader and make a social impact.

Social entrepreneurship is a form of leadership that permanently changes the way problems are addressed on a global and local scale. Social entrepreneurs take innovative and creative approaches to develop sustainable solutions to various problems from poverty, malnutrition, and homelessness and lack of access to education, health care and dignified work. These methods allow social entrepreneurs to develop and implement pattern-breaking solutions for previously intractable social problems in sustainable ways and have a long-term orientation.

Social entrepreneurship is about being lean and having a vision, and then each year building layers of advantage. Social entrepreneurs invent, find ways to acquire new resources, learn and educate with the community, and develop new and stronger relationships with the community.
