

EARLY CHILDHOOD EDUCATION, BAE

The College of Education has six undergraduate programs: Early Childhood Education, Education and Youth Studies, Elementary Education, Middle School Education, Secondary Education and Special Education. The college also works jointly with the Chicago College of Performing Arts to deliver a program in Music Education. All of these programs, except Educational and Youth Studies, focus on teacher preparation.

The College of Education has a history of serving nontraditional and traditional undergraduate students and schedules, are designed to meet the needs of full-time and part-time students. All teacher preparation programs are offered at the Chicago campus and Harper University Center campus in Palatine.

Undergraduate programs within the College of Education prepare students to transform schools and communities in the pursuit of knowledge and social justice. Through the continuous evaluation and refinement of academic programs and courses, offerings are kept current and relevant to real-world contexts and professional standards of quality. Experienced, dedicated and culturally diverse faculty work collaboratively with students to foster knowledge and skills with respect to diverse learners, instruction, assessment and research. Talent and resources from a variety of disciplines are integrated and used, as are cutting edge technologies. All programs require a variety of field and clinical experiences that augment and integrate academic studies.

The program in Early Childhood Education is interdisciplinary in scope and practical in orientation. Its purpose is to prepare students to become highly qualified, capable, and dedicated educators in Head Start, childcare, and preschool programs, as well as kindergarten and primary grades. Students complete diverse field placements and clinical experiences in public schools and private agencies serving children from infancy through second grade. Students can choose from two concentrations. The first leads to a State of Illinois teaching license, with the early childhood endorsement and early childhood special education approval, and the Gateways to Opportunity Level 5 ECE Credential. The second concentration leads to the Gateways to Opportunity Level 5 ECE and Infant/Toddler Credentials. The bilingual/ESL minor is required to teacher licensure candidates, and is recommended to students completing the Level 5 ECE and Infant/Toddler Credentials. With careful planning, teacher licensure candidates can add on an additional endorsement in Elementary Education and Special Education (LBS1).

CPS AA to BA Teacher Residency Program

Roosevelt's CPS AA to BA Teacher Residency program was designed in collaboration with the Chicago Public Schools and is the only undergraduate teacher residency program available in the state of Illinois. The goal of the program is to provide paraprofessionals and teaching assistants working in the Chicago Public Schools with an affordable and high-quality pathway to a BA degree and teacher licensure.

In addition to meeting the requirements for admission, candidates must pass the ILTS Early Childhood Education content exam and successfully complete all required coursework. All required courses are delivered online and face to face at the Chicago campus while candidates are employed full-time with Chicago Public Schools.

Prerequisites

Two introductory courses (6 credit hours) are required of all undergraduate majors in the College of Education. These courses provide students with the opportunity to explore a variety of educational roles, careers and concepts. All courses must be passed with grades of C- or higher to advance into the major.

Code	Title	Credit Hours
EDUC 101	BECOMING A SJ EDUCATOR	3
EDUC 201	LANGUAGE & CULTURE IN EDUCATION	3
Total Credit Hours		6

Requirements

Students may begin major core courses in the Early Childhood Education program so long as they have a minimum 2.7 GPA in all undergraduate courses. All methods courses must be passed with grades of C- or higher.

Students must maintain an overall GPA of at least a 2.7 while enrolled in the education program. Should a student fall below a 2.7 GPA, the College of Education program faculty will review the students eligibility to continue moving forward in the licensure program.

concentrations

The Early Childhood Education major offers two concentrations: Early Childhood Teacher Licensure and Early Care and Education.

CONCENTRATION IN early childhood teacher licensure (BIRTH-grade 2)

Students who complete the Early Childhood Teacher Licensure concentration earn a State of Illinois Professional Education License, with an early childhood endorsement and early childhood special education approval which will allow teaching special needs pre-kindergarten

only. Students in this concentration also must earn the bilingual/ESL minor and with teacher licensure will earn the Bilingual and/or ESL endorsement. With careful planning, students can add on an additional endorsement in Elementary Education and Special Education (LBS1).

All courses must be passed with grades of C- or higher. Student Teaching must be passed with a minimum C or higher.

ELED 341	METHODS OF TEACHING MATHEMATICS & SCIENCE IN K - 8 EDUCATION	3
ECHD 374	STUDENT TEACHING AND SEMINAR IN EARLY CHILDHOOD EDUCATION	12
ECHD 382	EARLY CHILDHOOD SPECIAL EDUCATION METHODS	3
Total Credit Hours		21

CONCENTRATION in early care and education (birth-age 8)

Successful completion of the Early Care and Education concentration entitles students to the Level 5 ECE and Infant/Toddler Credentials, state recognized employment credentials that signal substantial training, education, and experience with children birth through age 8. No exams are required for this credential, but an application must be submitted to Gateways to Opportunity, a support system for Illinois early care and education professionals. The Level 5 Credentials are not a teaching license but may be used to obtain employment in childcare settings. The bilingual/ESL minor is recommended to students completing this concentration. All courses must be passed with grades of C- or higher. Students must have a minimum GPA of a 2.7.

Total Credit Hours		12

Field Experience & Practicum/Student Teaching

Pedagogical and real-world training is at the center of undergraduate degree coursework. Consequently, all Early Childhood Education majors are required to enroll in one credit hour "individualized Coaching and Field Experiences" courses in each of three semesters prior to their practicum or student teaching. Each field experience course requires 50 hours in a classroom setting.

In their Individualized Coaching courses, students will complete the field experiences needed to develop professional knowledge, skills and dispositions in alignment with Roosevelt's social justice mission. As students progress from one individualized Coaching course to another, they will take on tasks and responsibilities that are increasingly complex and challenging. These experiences will prepare students for success in the practicum and student teaching experiences that culminate in the Early Childhood major and facilitate the awarding of an employment credential or license.

Placement in practicum/ student teaching sites is planned with consideration of professional standards and partnership schools and agencies. Pre-primary and Primary student teaching placements are open only to students who have successfully completed the appropriate general education and professional education courses and early childhood content test (licensure concentration only), and other College of Education student teaching requirements. Placements in sites with diverse student populations are required. Students must make formal application two semesters prior to the semester in which they plan to do their practicum/student teaching. Applicants are expected to be in good and academic standing and must provide evidence of competency with regard to professional dispositions, including the passage of a criminal background check. Students should consult regularly with their advisor about the specific requirements for licensure and student teaching in Illinois.

Licensure requirements

In order to qualify for Roosevelt University's recommendation for the Illinois teaching license and early childhood endorsement, students must meet all general education requirements that are in effect at the time of their application.

Students must consult with their education advisor to determine which general education courses are acceptable toward fulfillment of licensure requirements. Because requirements for licensure, graduation, and continuing enrollment are subject to change, undergraduates must consult frequently with their education advisors. The advising plan developed at program admission provides the most up-to-date and authoritative information with respect to all program and licensure requirements.

Student's one semester prior to their student teaching must submit proof of passing the Early Childhood Education content exam that meets the state's criterion and have a minimum 2.7 GPA in all undergraduate courses. All courses must be passed with grades of C- or higher. Please contact the College of Education for more information regarding the Early Childhood Education content exam criteria.

Before issuing a license, the Illinois State Board of Education also requires satisfactory scores on the Educator Teacher Performance Assessment Portfolio (edTPA).

Your degree map is a general guide suggesting courses to complete each term on the academic pathway to your degree. It is based on the most current scheduling information from your academic program. Your program's degree map is reviewed annually and updated as schedules change (although you retain the same course requirements as long as you are continuously enrolled in your degree program).

Always work closely with your academic advisor to understand curriculum requirements and scheduling, as each student's academic plan can look slightly different.
