

EXERCISE NUTRITION HEALTH SCIENCES, BA

The Bachelor of Arts in Exercise, Nutrition & Health Science (ENHS) is a program designed for comprehensive study in the combined disciplines of Exercise & Sport Science, Nutrition & Food Science, and Health Science. Students complete a foundational core in anatomy and physiology, general exercise science, nutrition for sport, and foundations in health education. The foundation of knowledge supports the flexibility to select from one of three concentrations of interest: Kinesiology, Nutrition and Health Science, or Sport and Health Coaching.

The Kinesiology concentration offers an in depth study of movement science with required courses in kinesiology, exercise physiology, strength and conditioning, and exercise program design. Students have additional flexibility to pursue areas of interest by selecting three elective courses from areas of exercise science, human performance, fitness, sport nutrition, or health science. This concentration is an excellent fit for students interested in exercise science, fitness, sport, pre-professional tracks or graduate studies in Physical Therapy or related disciplines.

The Nutrition and Health Science concentration offers an in depth study of food science, clinical nutrition, principles of health and global health. Students have additional flexibility to pursue areas of interest by selecting three elective courses from areas of nutrition assessment, health coach training, exercise science, fitness, or sport.

This concentration is an excellent fit for students who want to pursue careers in nutrition and food science, nutrition or health educator, corporate wellness, community and public health, and for students continuing with graduate studies in a related discipline.

The Sport and Health Coaching concentration offers studies in human performance for various populations, sport safety training, coaching principles, and health/wellness coach training. This concentration offers opportunities for students to stack coaching credentials in sport first aid, coaching principles and health coaching. Students have additional flexibility to pursue areas of interest by selecting three elective courses from areas of nutrition, exercise science, fitness, sport and health science. This concentration is an excellent fit for students who want to pursue careers in sport or health coaching, sport training, exercise and health promotion, personal training, or fitness program coordinator/director.

Requirements for the Bachelor of Arts in Exercise, Nutrition, & Health Science include 38 hours required in the major. Five required courses (17 Hours of Core) provide the foundation of knowledge. Four required courses (12 Hours of Concentration) are offered within each of the three concentration tracks (Kinesiology, Sport & Health Coaching, and Nutrition & Health Science). Students also select three free elective courses (9 Hours of Electives) within the BA in ENHS program and at least two of those electives must be at the 300 level.

- It is suggested that courses are taken in the order of the curriculum plan.
- Following enrollment, completion of all remaining AHS, ALH, BIOL, FIT and HCA courses must be accomplished at Roosevelt University. Under special circumstances, written permission to take required courses elsewhere may be granted by the department chair.
- Courses in Exercise, Nutrition and Health Science must have been taken within the last eight years to be accepted for graduation.

- The university's requirement for BA degrees is a minimum of 18 hours at the 300 level. Students in ENHS may need 300 level courses outside of the major if they do not choose two such courses from the elective list.
- PSYC 103 INTRODUCTORY PSYCHOLOGY and PSYC 200 INTRODUCTORY STATISTICS are two recommended Social Science courses within the General Education Core.
- A grade of C- is the minimal acceptable grade for a course to be applied to the major and the supporting sequence, or to be acceptable as a prerequisite for subsequent courses.
- A minimum GPA of 2.0 is required for all courses in the major.

Requirements: 38 hours required in major

- 17 hours of core
- 12 hours of concentration
- 9 hours of electives

Concentrations-

- Kinesiology
- Sport & Health Coaching
- Nutrition & Health Sciences

Ideas of Social Justice

3 credits in coursework categorized as Ideas.	3
---	---

Humanities and Fine and Performing Arts

9 credits from the following subject areas: African-American Studies, Art History, English (excluding ENG 101 and ENG 102), History, Languages, Music, Philosophy, Theatre, Communication and Women's and Gender Studies	9
--	---

Mathematics

MATH 110	QUANTITATIVE LITERACY (or above) ¹	3
----------	---	---

Science

One biological science and one physical science required (at least one must be a four-hour lab). (Not applicable for science majors)	7-8
--	-----

Social Sciences

9 credits from the following subject areas: African-American Studies, Anthropology, Economics, History, Journalism, Philosophy, Political Science, Psychology, Sociology and Women's and Gender Studies	9
---	---

Experiential Learning

6 credits from coursework categorized as Experiential Learning.	6
---	---

Total Credit Hours	47-48
---------------------------	--------------

¹ Higher level of Math may be required by major

These quantitative requirements also apply to degrees.

- Students must earn a minimum of 120 semester hours.
- Students may apply no more than 60 credit hours of 100-level courses toward the degree.
- Students must apply no fewer than 60 credit hours of 200- and 300-level courses toward the degree.
- Students must have at least 18 credit hours (of the 60 credit hours above) at the 300 level.
- Students may transfer in no more than 70 credit hours from community colleges.

- Students earning less than 60 total hours in residence must take their final 30 hours at Roosevelt University. Note that some majors have additional requirements for RU hours.
- Students must have a grade point average of 2.0 or higher to graduate. Note that some majors have additional GPA requirements.
- Students may apply no more than 51 hours in the major (BA) or 57 hours in the major (BS)

² At least two electives must be at the 300 level
